MR. WALKER TO MR. WILSON.

The Massachusetts Member Denies an Assertion Made by the West Virginian in His Speech-Called Upon to Prove It. The following open letter, published

in the Washington papers, explains

Washington, D. C., Feb. 6, 1894.

Hon. W. L. Wilson, Chairman Weys and Means Commattee:

Dean Sin:—The remarks made by you on January 9, being held out of the Record until January 23—fourteen days—deprived me of the opportunity to call your attention and that of the house to them, as has also your absence from the house on account of ill health since they appeared. I learn that ill health will detain you from the house for quite a period after to-morrow, and I take this, the only opportunity I have, to publicly call your attention to some remarks made by you in the house on January 9 last, as follows:

"Mr. Wilson—Mr. Chairman, there is nothing different in the methods of the protected industries from what they have always been in the past, except that with greater power, with the command of greater wealth, and assisted by the commercial crisis and the hard times, they are exercising over their lown employes a coercive nower that

the commercial crisis and the hard times, they are exercising over their own employes a coercive power that fills the petition box of this house with their petitions. (Applause.) "If locking out is not coercion in the estimation of the gentleman, I would like to know what does constitute it? (Laughter and applause on the Demo-cratic side.)

(Laughter and appears)
"It is a system of bulldozing that is resorted to on such occasions. The manufacturers lock out the employes, and they can afford to do it, because the base accomplated a surplus that

and they can afford to do it, because they have accumulated a surplus that needs a market, and are falsely and brutally attempting to make men believe that it is done by reason of the pendency of a new tariff bill. [Applause on the Democratic side.]
"My mail is filled with private letters from workingmen in different parts of the country engaged in the protected industries, telling me how they were drawn up like cattle and virtually forced to sign-these protests, and beging me not to believe that they really signed the positions in carnest."

As a representative in part of Massachusetts, the manufacturers and em

As a representative in part of Massa-chasetts, the manufacturers and em-ployes in which are criticised and in-cluded in your remarks above quoted, and in their behalf, and in behalf of all the manufacturers in the north who are members with me of various business organizations, and more especially the wage workers who petitioned you. I deny in whole and in part your state-ments made in the extracts from the address above quoted. I pronounce each and all of them, aside from your statement that letters have been re-ceived by you purporting to sustain ceived by you purporting to sustain such statements, as unqualifiedly un-true. such statements, as unqualifiedly untrue. With all deference to your truthfulness and accuracy, I ask for the proof to be made public that purports to sustain any such wholesale statement and charge of bulldozing upon the part of manufacturers and of submission to such bulldozing upon the part of the employes of any manufacturers in any northern state.

For the purpose of this contention and to develop the proof of your statements above quoted, I not only pronounce each and every one of them untrue, but that they were deliberately made by you to discredit, break the force of and destroy the rightful and legitimate influence of the petitions of the wage-workers employed, in manufacturing industries then being presented to the United States house of representatives. sontatives

As a representative of thousands of the workingmen you thus assaulted and attempted to deprive of all value their right of appeal to this house, I demand of you that you prove the charges you have made against have made against the wage-workers and manufacturers, to which I hereby

call your attention, or withdraw them Your assumption that it is your duty Your assumption that it is your duty to protect the writers of letters to you, upon the contents of which you make any such statement, is wholly unwarranted, being based, as are the statements complained of, upon wholly untrue assumptions. I call your attention to the wholesome rule of all fair conductin conducting any quest for truth, viz., not to base charges upon facts one is not at liberty, to fully disclose. Such subterfuge argue a weak cause and in subterfuge argue a weak cause and in themselves justify suspicions that do little credit to the man who resorts to such virtually anonymous communica-tions to sustain his cause.

The first passenger car from Pitts-burgh to this place over the F. M. & P. reached this place yesterday. It was the private car No. 702, of Major John son, engineer of maintenance of way, and besides Major Johnson it contained and besides Major Johnson it contained the following prominent railroad officials: T. Fitzgerald, J. V. Patton, M. V. Cutter, of Pittsburgh division, and Mr. R. M. Sheets, of the Parkersburg and Wheeling divisions. Several miles of this new road are yet to be ballasted, and it is thought that through trains will not be run directly to Pittsburgh before the spring schedule.

unto himself a law. But what Lont means to us is this: In every church there is, you know, a revival season, a short period of great excitement in which conversions are made, too often, for only a brief time. Lent is the revival season of the Episcopal church. We extend it over a longer period than other churches do their revivals, and there is no excitement incident to it. We purify our bodies by fasting, our spiritual beings by self-denial. During this period we have a sort of spiritual stock-taking. We look back upon the past year and we see what we have gained or lost in grace and we lay the loundation for the year to come. We enter upon our work with new courage and strength. We take as our example our Savior. Do you not know that before entering upon his ministry he went into the wilderness and there fasted forty days and forty nights endeavor to tread in the divine footprints. Remember:

1. That the object of keeping Lent is not to coaform to an ancient custom, but to obtain a spiritual good.

2. That the testimony of Christians whose testimony is worth having is that there is much profit in a well kept Lent.

The remark was made by a very prominent professor, connected with one of the leading professor, connected with one of the leading New York hospitals. Continuing, he sald:

"It is not these things that are troubling people, but it is an advanced form of our old energy, the crip. People feel out of sorts, success, nave palies in the muscles and bones, have no appetite, lossed linterest in the world and wonder what is the matter. It is the grip; nothing clae.

What do my people do in the Lenten season? I cannot answer for them individually, for in this, as in other things, each man's conscience must be unto himself a law. But what Lent means to us is this: In every church

3. That the benefits of Lent are for those who seek them, and they cannot be expected to come unsonght.

4. That the purpose of fasting is not to propitiate God by making ourselves miserable, but to gain control over our appetites and desires.

5. That whenever money is saved to us by our Lenten self-denial in food or pleasure, the discipline of self-denial is not complete until we have devoted the money to the Lord.

6. That all our self-examination should be unbiased, our object being not to
